

DISTRICT LEADER'S ROADMAP

As reopening schools becomes a closer reality, understanding where each learner is on the academic and social emotional levels, will be crucial. Map out your academic plan with a comprehensive understanding of each learners' starting point.

Silverback
LEARNING SOLUTIONS

DO FIRST

CHALLENGE

Set an ambitious goal to ensure that every student is on track for success academically, socially and emotionally by the end of the school year.

SOLUTION

Provide educators with a longitudinal view of each student's academic profile on day one. Accordingly, instruction can be tailored throughout the year in conjunction with managing interventions, progress monitors and behavioral incidents.

mileposts

CHALLENGE

Develop a plan for assessing students' learning progress and loss when students return.

SOLUTION

Utilizing standards-aligned prebuilt assessments (formative and summative) district leaders can develop a comprehensive assessment strategy for all grade levels. edifyAssess provides exceptional reporting from a district overview down to student level results.

edify
assess

CHALLENGE

Inventory all intervention programs and services that are available to students when they return to school.

SOLUTION

Ensure all stakeholders have a clear view into any and all accommodations, progress monitors and stated goals that align with your district's RTI/MTSS process.

mileposts

DO BEFORE SCHOOL OPENS

CHALLENGE

Solidify and communicate an overall plan for assessment for when students return to school that include analyzing data, and making adjustments to curriculum based on the data.

SOLUTION

Leverage Inspect+ recommended assessment cycle to custom tailor your district strategy, including formative, interim and summative testing. edifyAssess' suite of reports will allow educators to benchmark performance and provide teachers support in implementing targeted instruction.

edify
assess

CHALLENGE

Identify the most vulnerable students: Disabilities, ELA, Homeless or Displaced, Migrant, COVID-19 impact to family.

SOLUTION

Demographics and other key indicators are included in the student's e-file. This allows leaders to run detailed reports on the student population at various levels to identify potential needs. Teams can create individualized learning plans and accommodations where needed directly in Mileposts.

mileposts

CHALLENGE

Secure resources and plan restorative supports and professional learning offerings for teachers.

SOLUTION

Allows the district to implement an easy to use observation and review process to identify opportunities for mentoring and coaching. Combined with professional development recommendations from district approved resources, Teacher Vitae provides a closed-loop environment for fostering collaboration and personal growth.

teacher
vitae

CHALLENGE

Review assessment data gathered by schools to identify trends and specific gaps in student learning to design targeted support interventions.

SOLUTION

Using the edifyAssess prebuilt standards-aligned assessments, schools can effectively measure the level of proficiency for each student. Utilizing results data, districts can use edifyAssess' proprietary reporting to identify gaps and adjust targeted curriculum accordingly.

CHALLENGE

Develop targeted intervention plans to stopgap learning loss for the most vulnerable students.

SOLUTION

Academic and emotional gaps are quickly identified within Mileposts so that intervention progress and support tools can be implemented thoughtfully and shared within professional learning communities throughout the district.

CHALLENGE

Assess the efficacy of all academic and social emotional interventions against the goal of ensuring that students are on track by the end of the 2022 school year.

SOLUTION

Tracking the longitudinal progression of every student allows leadership to report on the effectiveness of targeted academic and SEL support strategies correlating to district goals.

SCHOOL LEADER'S ROADMAP

As reopening schools becomes a closer reality, understanding where each learner is on the academic and social emotional levels, will be crucial. Map out your academic plan with a comprehensive understanding of each learners' starting point.

LEARNING SOLUTIONS

DO FIRST

CHALLENGE

Establish virtual structures for teacher teams to continue collaborating on curriculum planning and assessing student academic and social-emotional well being when they return to school.

SOLUTION

Schools can implement and manage local frameworks that promotes collaboration. Teachers can upload and share best practices within professional learning communities and engage within mentoring and coaching programs.

 **teacher vitae**

CHALLENGE

Strengthen intervention programming and social emotional supports by working closely with intervention specialists counselors and psychologists.

SOLUTION

Increase visibility and accessibility to all stakeholders involved within intervention planning. Ensure progress monitors are utilized with fidelity across teams to accelerate student achievement.

 **mileposts**

CHALLENGE

Support teachers to create feedback loops with parents and families about students' academic and social-emotional health and well being.

SOLUTION

Empower students to participate in goal setting based on clear understanding of current state objectives. Increase parent engagement through data driven conferences powered by Mileposts' parent portal.

 **mileposts**

DO BEFORE SCHOOL OPENS

CHALLENGE

Develop a parent communication strategy to inform parents about their child's assessment data and progress.

SOLUTION

Student level reports can be exported into print-friendly documents which can be shared with parents throughout the course of the year as needed.

 **mileposts**

CHALLENGE

Survey teachers about their professional learning needs around restorative and social-emotional supports. Integrate SEL best practices to ensure high-quality instruction and ongoing support for all students.

SOLUTION

Teacher Vitae includes rubrics with embedded SEL components that can be used to identify areas of opportunities for targeted professional development. District leadership can partner with schools to evaluate and deploy SEL related PD directly within the platform.

 **teacher vitae**

CHALLENGE

Assess the effectiveness, appropriateness, and sustainability of certain digital and online tools for supporting instruction and meeting student's instructional needs.

SOLUTION

Schedule a consultation with a Learning Enablement Advisor to see how Silverback Learning's suite of solutions can support your school's mission in closing achievement gaps and increasing teacher effectiveness.

 **edify teacher vitae**
mileposts

CHALLENGE

Understand every student's academic health by using assessments and assessment methods, including formative, diagnostic, and parent feedback.

SOLUTION

By combining the longitudinal view of student performance with a comprehensive assessment strategy, teachers can determine reinforcement needs and easily incorporate parent feedback into instructional strategies where applicable.

CHALLENGE

Procure any additional programs, tools, or materials to support differentiation, intervention and remote learning.

SOLUTION

Partner with Silverback Learning to streamline district resources with customized solutions and flexible terms to meet the challenging realities facing educators and school leaders.

CHALLENGE

Communicate with family and parents about every student's progress to prioritize additional support where needed (academic and/or social-emotional).

SOLUTION

The student e-File contains historical data relative to performance, educational supports, program referrals and other key indicators from multiple sources to guide student support team conversations with parents.
